MediBonus

2019 BENEFIT GUIDE

MEDSHIELD MediBonus Benefit Option

You never know when you or your family member/s may require medical care or treatment and, most importantly, whether you will have funds readily available to cover the costs.

The Medshield Medical Scheme 2019 Benefits were designed with the intent to ensure member access to quality healthcare services.

MediBonus is best suited for individuals that require comprehensive cover, providing you with complete peace of mind. It offers unlimited In-Hospital cover and pays at 200% of the Medshield Private Tariff for specific In-Hospital services. Out-of-Hospital cover includes a range of benefits such as Dental, Optical, a Day-to-Day Limit for General Practitioners visits, Specialists, Radiology and Pathology, and many more.

This is an overview of the benefits offered on the **MediBonus** option:

What you need to know as a member

- Carefully read through this guide and use it as a reference for more information on what is covered on the **MediBonus** option, the benefit limits and the rate at which the services will be covered
- All hospital admissions must be pre-authorised 72 hours prior to admission by the relevant Managed Healthcare Programme on 086 000 2121 (+27 11 671 2011)
- Your cover for hospitalisation includes accommodation, theatre costs, hospital equipment, theatre and/or ward drugs, pharmaceuticals and/or surgical items
- Hospitalisation is easily accessible for your peace of mind
- Pre-authorisation is not a guarantee of payment and Scheme Rules/Protocols will be applied where applicable
- Specialist services from treating/attending Specialists are subject to pre-authorisation
- The use of the Medshield Specialist Network may apply
- If you do not obtain a pre-authorisation or retrospective authorisation in case of an emergency, you will incur a percentage penalty
- Our Contact Centre Agents are available to assist should you require clarity on your benefits

Your claims will be covered as follows:

Medicines paid at 100% of the lower of the cost
of the SEP of a product plus a negotiated dispensing fee, subject to the use of the Medshield Pharmacy Network and Managed Healthcare Protocols.

Extended Benefit Cover (up to 200%)
will apply to the following In-Hospital services (as part of an authorised event):

- Surgical Procedures
- Confinement
- Consultations and visits by General Practitioners and Specialists
- Maxillo-facial Surgery
- Non-surgical Procedures and Tests

Treatment and consultations will be paid at 100% of the negotiated fee,
or in the absence of such fee, 100% of the lower of the cost or Scheme Tariff.

Medshield Private Tariff (up to 200%)
will apply to the following services:

- Confinement by a registered Midwife
- Non-surgical Procedures (Refer to Addendum B for the list of services)
- Routine Diagnostic Endoscopic Procedures (Refer to Addendum B for a list of services)

MediBonus

Bank: Nedbank | Branch: Rivonia | Branch code: 196905 | Account number: 1969125969

WEBSITE

Our website is an informative, user-friendly online portal, providing you with easy access and navigation to key member related information. It features regular Scheme updates and a Wellness section which provides expert advice on maintaining a balanced lifestyle.
Visit www.medshield.co.za for more information and to register to view the following details:

- Membership details
- Claims status and details
- Savings balance
- Summary of used and available benefits

FRAUD

Fraud presents a significant risk to the Scheme and members. The dishonesty of a few individuals may negatively impact the Scheme and distort the principles and trust that exist between the Scheme and its stakeholders. Fraud, for practical purposes, is defined as a dishonest, unethical, irregular, or illegal act or practice which is characterised by a deliberate intent at concealment of a matter of fact, whether by words, conduct, or false representation, which may result in a financial or non-financial loss to the Scheme. Fraud prevention and control is the responsibility of all Medshield members and service providers so if you suspect someone of committing fraud, report it to us immediately.

Hotline: 080 002 0800
email: fraud@medshield.co.za

COMPLAINTS Escalation Process

In the spirit of promoting the highest level of professional and ethical conduct, Medshield Medical Scheme is committed to a complaint management approach that treats our members fairly and effectively in line with our escalation process.

In the event of a routine complaint, you may call Medshield at 086 000 2120 and request to speak to the respective Manager or the Operations Manager.

Complaints can be directed via email to complaints@medshield.co.za, which directs the complaint to the respective Manager and Operations Manager. The complaint will be dealt with in line with our complaints escalation procedure in order to ensure fair and timeous resolution.

ONLINE SERVICES - Apple iPad and Android Member Apps

It has now become even easier to manage your healthcare! Medshield members now have access to real-time, online software applications which allow members to access their member statements as well as claims information anywhere and at any time.

Aside from viewing member statements you can also use these apps for hospital pre-authorisation, to view or email your tax certificate, get immediate access to your membership details through the digital membership card on the app as well as check your claims through the claims checker functionality in real time. This service allows members to search for healthcare professionals or establishments in just a few easy steps.

The Apple Ipad App is available from iTunes and the Android version from the Playstore.

PRESCRIBED Minimum Benefits (PMB)

All members of Medshield Medical Scheme are entitled to a range of guaranteed benefits; these are known as Prescribed Minimum Benefits (PMB). The cost of treatment for a PMB condition is covered by the Scheme, provided that the services are rendered by the Scheme's Designated Service Provider (DSP) and according to the Scheme's protocols and guidelines.

What are PMBs?

The aim of PMBs is to provide medical scheme members and beneficiaries with continuous care to improve their health and well-being, and to make healthcare more affordable.

These costs are related to the diagnosis, treatment and care of the following three clusters:

CLUSTER 1

Emergency medical condition

- An emergency medical condition means the sudden and/or unexpected onset of a health condition that requires immediate medical or surgical treatment
- If no treatment is available the emergency may result in weakened bodily function, serious and lasting damage to organs, limbs or other body parts or even death

CLUSTER 2

Diagnostic Treatment Pairs (DTP)

- Defined in the DTP list on the Council for Medical Schemes' website. The Regulations to the Medical Schemes Act provide a long list of conditions identified as PMB conditions
- The list is in the form of Diagnosis and Treatment Pairs. A DTP links a specific diagnosis to a treatment and therefore broadly indicates how each of the 270 PMB conditions should be treated and covered

CLUSTER 3

26 Chronic Conditions

- The Chronic Disease List (CDL) specifies medication and treatment for these conditions
- To ensure appropriate standards of healthcare an algorithm published in the Government Gazette can be regarded as benchmarks, or minimum standards for treatment

WHY PMBs?

PMBs were created to:

- Guarantee medical scheme members and beneficiaries with continuous care for these specified diseases. This means that even if a member's benefits have run out, the medical scheme has to pay for the treatment of PMB conditions
- Ensure that healthcare is paid for by the correct parties. Medshield members with PMB conditions are entitled to specified treatments which will be covered by the Scheme

This includes treatment and medicines of any PMB condition, subject to the use of the Scheme's Designated Service Provider, treatment protocols and formularies.

WHY Designated Service Providers are important?

A Designated Service Provider (DSP) is a healthcare provider (doctor, pharmacist, hospital, etc) that is Medshield's first choice when its members need diagnosis, treatment or care for a PMB condition. If you choose not to use the DSP selected by the Scheme, you may have to pay a portion of the provider's account as a co-payment. This could either be a percentage based co-payment or the difference between the DSPs tariff and that charged by the provider you went to.

If you choose not to use the DSP selected by your scheme, you may have to pay a portion of the bill as a co-payment.

QUALIFYING to enable your claims to be paid

- One of the types of codes that appear on healthcare provider accounts is known as International Classification of Diseases ICD-10 codes. These codes are used to inform the Scheme about what conditions their members were treated for, so that claims can be settled correctly
- Understanding your PMB benefit is key to having your claims paid correctly. More details than merely an ICD-10 code are required to claim for a PMB condition and ICD-10 codes are just one example of the deciding factors whether a condition is a PMB
- In some instances you will be required to submit additional information to the Scheme. When you join a medical scheme or in your current option, you choose a particular set of benefits and pay for this set of benefits. Your benefit option contains a basket of services that often has limits on the health services that will be paid for
- Because ICD-10 codes provide information on the condition you have been diagnosed with, these codes, along with other relevant information required by the Scheme, help the Scheme to determine what benefits you are entitled to and how these benefits should be paid
- The Scheme does not automatically pay PMB claims at cost as, in its experience there is a possibility of over-servicing members with PMB conditions. It therefore remains your responsibility, as the member, to contact the Scheme and confirm PMB treatments provided to you

If your PMB claim is rejected you can contact Medshield on 086 000 2120 (+27 10 597 4701) to query the rejection.

YOUR RESPONSIBILITY as a member

EDUCATE yourself about:

- The Scheme Rules
- The listed medication
- The treatments and formularies for your condition
- The Medshield Designated Service Providers (DSP)

RESEARCH your condition

- Do research on your condition
- What treatments and medications are available?
- Are there differences between the branded drug and the generic version for the treatment of your condition?

DON'T bypass the system

- If you must use a GP to refer you to a specialist, then do so.
- Make use of the Scheme's DSPs as far as possible.
- Stick with the Scheme's listed drugs for your medication

TALK to us!

- Ask questions and discuss your queries with Medshield.
- Make sure your doctor submits a complete account to Medshield.

CHECK that your account was paid

- Follow up and check that your account is submitted within four months and paid within 30 days after the claim was received (accounts older than four months are not paid by medical schemes)

IMPORTANT to note

When diagnosing whether a condition is a PMB, the doctor should look at the signs and symptoms at point of consultation. This approach is called a diagnosis-based approach.

- Once the diagnosis has been made, the appropriate treatment and care is decided upon as well as where the patient should receive the treatment i.e. at a hospital, as an outpatient ,or at a doctor's rooms
- Only the final diagnosis will determine if the condition is a PMB or not
- Any unlimited benefit is strictly paid in accordance with PMB guidelines and where treatment is in line with prevailing public practice

HEALTHCARE PROVIDERS' responsibilities

Doctors do not usually have a direct contractual relationship with medical schemes. They merely submit their accounts and if the Scheme does not pay, for whatever reason, the doctor turns to the member for the amount due. This does not mean that PMBs are not important to healthcare providers or that they don't have a role to play in its successful functioning. Doctors should familiarise themselves with ICD-10 codes and how they correspond with PMB codes and inform their patients to discuss their benefits with their scheme, to enjoy guaranteed cover.

How to avoid rejected PMB claims?

- Ensure that your doctor (or any other healthcare service provider) has quoted the correct ICD-10 code on your account. ICD-10 codes provide accurate information on your diagnosis
- ICD-10 codes must also be provided on medicine prescriptions and referral notes to other healthcare providers (e.g. pathologists and radiologists)
- The ICD-10 code must be an exact match to the initial diagnosis when your treating provider first diagnosed your chronic condition or it will not link correctly to pay from the PMB benefit
- When you are registered for a chronic condition and you go to your treating doctor for your annual check-up, the account must reflect the correct ICD-10 code on the system. Once a guideline is triggered a letter will be sent to you with all the tariff codes indicating what will be covered from PMB benefits
- Only claims with the PMB matching ICD-10 code and tariff codes will be paid from your PMB benefits. If it does not match, it will link to your other benefits, if available
- Your treatment must be in line with the Medshield protocols and guidelines

PMB CARE templates

The law requires the Scheme to establish sound clinical guidelines to treat ailments and conditions that fall under PMB regulation. These are known as ambulatory PMB Care templates.

The treatment protocol is formulated into a treatment plan that illustrates the available number of visits, pathology and radiology services as well as other services that you are entitled to, under the PMB framework.

TREATMENT Plans

Treatment Plans are formulated according to the severity of your condition. In order to add certain benefits onto your condition, your Doctor can submit a clinical motivation to our medical management team.

When you register on a Managed Care Programme for a PMB condition, the Scheme will provide you with a Treatment Plan.

When you register for a PMB condition, ask for more information on the Treatment Plan set up for you.

The treatment protocol for each condition may include the following:

- The type of consultations, procedures and investigations which should be covered
- These will be linked to the condition's ICD-10 code(s)
- The number of procedures and consultations that will be allowed for a PMB condition can be limited per condition for a patient

The frequency with which these procedures and consultations are claimed can also be managed.

Claims accumulate to the care templates and Day-to-Day benefits at the same time.

Addendum **A**

INFERTILITY INTERVENTIONS AND INVESTIGATIONS

Limited to interventions and investigations as prescribed by the Regulations to the Medical Schemes Act 131 of 1998 in Addendum A paragraph 9, code 902M. This benefit will include the following procedures and interventions:

Hysterosalpinogram	Rubella
Laparoscopy	HIV
Hysteroscopy	VDRL
Surgery (uterus and tubal)	Chlamydia
Manipulation of the ovulation defects and deficiencies	Day 21 Progesteron
Semen analysis (volume, count, mobility, morphology, MAR-test)	Basic counselling and advice on sexual behaviour
Day 3 FSH/LH	Temperature charts
Oestradoil	Treatment of local infections
Thyroid function (TSH)	Prolactin

Addendum **B**

PROCEDURES AND TESTS IN PRACTITIONERS' ROOMS

Breast fine needle biopsy	Prostate needle biopsy
Vasectomy	Circumcision
Excision Pterygium with or without graft	Excision wedge ingrown toenail skin of nail fold
Excision ganglion wrist	Drainage skin abscess/curbuncle/whitlow/cyst
Excision of non-malignant lesions less than 2cm	

ROUTINE DIAGNOSTIC ENDOSCOPIC PROCEDURES (CO-PAYMENTS WILL APPLY IN-HOSPITAL)

Hysteroscopy	Oesophageal motility studies
Upper and lower gastro-intestinal fibre-optic endoscopy	Fibre-optic Colonoscopy
24 hour oesophageal PH studies	Sigmoidoscopy
Cystoscopy	Urethroscopy
Colposcopy (excluding after-care)	Oesophageal Fluoroscopy
